

## COMPONENTS & ACCESSORIES

Lycoming & Continental

All aircrafts and aircraft engines are equipped with important components for various purposes as to ensure troubleless and safe operation, service, power supply or pressure/vacuum for the aircraft systems.

ScanAviation has for many years specialised in providing quality components not only supplied with our overhauled engines but also as field replacements to all aircraft systems. Either from internal overhauls or based on external sources we will always be able to offer you a component outright or in exchange. This is traditionally done from our stock based in Copenhagen. All components are fully EASA approved, of course. So if you need one of the following components we can assist:

STARTERS - ALTERNATORS - MAGNETOS - CARBURETORS  
- FUEL INJECTORS - VACUUM PUMPS - GOVERNORS -  
TURBOCHARGERS AND VALVES - PUMPS - HEATERS -  
GENERATORS - BLOWERS - ACTUATORS - REGULATORS -  
ETC....

We will always be able to offer you a good deal, instantly and with full certification.

We also offer time related inspections on the above. Talk to us next time you have a component problem. Our expertise and know-how can save you money and time. We are experts on components & accessories.
